

Are you an **Intermediate Civil Engineer or Engineering Technologist** looking for the opportunity to...

- Be a key part of a growing team of multi-disciplinary professionals?
- Have an impactful voice?
- Build genuine relationships with co-workers, clients and stakeholders?
- Be mentored and mentor others?
- Thrive in a fast-paced environment, with high expectations for quality and technical excellence?
- Challenge your critical thinking skills?
- Work in a fun, positive and flexible atmosphere that supports today's varied lifestyles?

If this sounds like you, we want you on our team!

Fluid Projects is a consultancy based in Calgary, AB that focuses on finding practical solutions to water challenges in the Energy Industry. We invest in relationships first which enables us to work collaboratively with clients to navigate the complex and ever-changing landscape surrounding the permitting, storage, reuse, and disposal of water and wastewater.

As a Full-Time Employee within our dynamic company, **RESPONSIBILITIES** will include:

- Technical delivery of civil projects including water storage reservoirs/dams, landfills, stormwater systems, freshwater intakes, water transfer stations and other civil focused projects
- Project management - leading project teams to deliver quality products in appropriate time-frames by demonstrating clear communication, strong leadership and effective problem-solving
- Actively seeking out new business opportunities while fostering relationships with a network of contacts
- Mentoring junior team members
- Site inspection and technical supervision
- Preparation and review of proposals, design documentation, and technical reports

## REQUIREMENTS

- Possession of a Bachelor's or Master's Degree in Civil Engineering OR Engineering Technologist Diploma
- Registered as a Professional Engineer/Technologist and in good standing with APEGA or ASET
- 3-8 years applicable experience in industry or the consulting sector
- Willing to travel and be in the field as required on a project needs basis
- Possess a Class 5 Driver's License and legally authorized to work in Canada

If you are up for the challenge to join our growing team, please submit applications to [info@fluidprojectsinc.ca](mailto:info@fluidprojectsinc.ca).

We appreciate all applications, however only individuals selected for interview will be contacted.
