

Fluid Projects has an exciting opportunity for a **Senior Civil/Environmental Engineer** ready to:

- Be a key part of a growing team of multi-disciplinary professionals
- Build genuine relationships with co-workers, clients and stakeholders
- Mentor others
- Thrive in a supportive environment with high expectations for quality and technical excellence
- Challenge your critical thinking skills
- Work in an inclusive, positive and flexible atmosphere that supports today's varied lifestyles

If this sounds like you, we want you on our team!

Fluid Projects is a consultancy based in Calgary, AB that focuses on finding practical solutions to water challenges in the Energy Industry. We invest in relationships first which enables us to work collaboratively with clients to navigate the complex and ever-changing landscape surrounding the permitting, storage, reuse, and disposal of water and wastewater.

As a leader within our dynamic company, **RESPONSIBILITIES** will include:

- Technical delivery of civil and geotechnical projects including water storage reservoirs/dams, landfills, stormwater systems, freshwater intakes, water transfer stations and other civil focused projects
- Project management - leading project teams to deliver quality products in appropriate time-frames by demonstrating clear communication, strong leadership and effective problem-solving
- Actively seeking out new business opportunities while fostering relationships with a network of contacts
- Mentoring junior team members
- Site inspection and supervision
- Preparation and review of proposals, design documentation, and technical reports

### REQUIREMENTS

- Possession of a Bachelor's or Master's Degree in Civil or Environmental Engineering
- Registered as a Professional Engineer and in good standing with APEGA
- 10 years applicable experience in industry
- Experience in the consulting sector preferred
- Excellent English communication skills, and experience in preparing and reviewing technical reports
- Possess a Class 5 Driver's License and legally authorized to work in Canada

If you are up for the challenge to join our growing team, please submit applications by **September 30, 2024** to [info@fluidprojectsinc.ca](mailto:info@fluidprojectsinc.ca).

We appreciate all applications, however only individuals selected for an interview will be contacted.
